Youth Group Opportunities

Service Learning

Explore what it means to 'welcome the stranger' as the 'stranger' becomes our neighbor. Groups will engage in a learning component in order to answer the questions, "who are refugees" and "why are refugees coming to Lancaster County". After exploring these questions, groups will serve by cleaning and setting up the home of a refugee family/individual who will arrive in the coming day(s).

Cultural Exchanges

Sit down with a local refugee family or individual to learn about their home culture and story. Ask questions like, "what is something you found strange about Lancaster when you first arrived" or "share something about your home culture that you would like to share with our group." No cost, however, covering the cost of food is appreciated if the family provides any.
